METADATA/QUALITY REPORTING

ESSPROS EARLY ESTIMATES

MEMBER STATE: HU

REFERENCE YEAR: 2022

REPORT ISSUED: 06/10/2023

1. Accuracy and Reliability / Geographical coverage

1.1 Coverage of data sources*- (part 1)

Name of data source	Type of data source used [1]	Frequency of the data source in months[2]	Time lag in months[3]	Schemes/benefits covered *(please indicate which scheme numbers and/or which benefits or group of benefits are covered by this data source)*
Financial budgetary reports of the local and central government institutions, centrally managed appropriations, social insurance funds	administrative data	12 months	7 months	1, 2, 5, 6, 8, 9, 11, 12, 17, 20, 22
National Accounts preliminary data	macro-statistical estimation	12 months	9 months	3, 4, 5, 6, 8, 12, 13, 14, 15, 21
Dwelling management of local governments - data collection 1080	survey	12 months	9 months	18
Report on social benefits provided in cash or in kind -data collection 1206	survey	12 months	8 months	2
Administrative data of the Ministry of Finance on the expenditures of employment agencies spent on unemployment benefits	administrative data	12 months	7 months	7
Administrative data of the Ministry of Finance on the government subsidy of non-governmental organizations, institutions and networks	administrative data	12 months	8 months	21

providing social, child welfare and protection services				
Labour Cost Survey – data collection 1117	survey	12 months	14 months	20

* Please be exhaustive by mentioning all schemes.

1. Please specify: "Administrative data", "Register based data", "National Accounts", "Survey", "Census", "Other". For category "Other", please specify the type.

2. Please specify: "3 months", "6 months", or "12 months" or etc.

3. The time lag is the period between reference year (31st of December of reference year) and the moment in which data sources are available.

1.1 Coverage of data sources (part 2) – *please note that part 1 and part 2 is in fact one table and have only been separated to facilitate the completion of the table*

Name of data source *(Please indicate the same data sources as in table 1.1 part 1)*	**Overall accuracy[4]**	**Geographical coverage (i.e. which parts of the country are covered by this data source)[5]**
Financial budgetary reports of the local and central government institutions, centrally managed appropriations, social insurance funds		Full coverage
National Accounts preliminary data		Full coverage
Dwelling management of local governments - data collection 1080	estimation based on data collection	Full coverage
Report on social benefits provided in cash or in kind -data collection 1206	estimated breakdown by functions	Full coverage
Administrative data of the Ministry of Finance on the expenditures of employment agencies spent on unemployment benefits		Full coverage
Administrative data of the Ministry of Finance on the government subsidy of non-governmental organizations, institutions and networks providing social, child welfare and protection services	estimated breakdown by functions based on administrative data	Full coverage

Labour Cost Survey – data collection 1117	data of previous years' data collection, the data of corporations cover only the enterprises with 50 or more employees	Full coverage

4. Please fill in this column only in cases of inaccuracies in the source for the purpose of deriving an early estimate: delays, data source containing estimations, incomplete coverage for some schemes and other possible problems or errors. Give a brief description of the main sources of inaccuracies.

5. Please indicate "Full coverage" if the data source covers the whole country. If the data source contains data for some regions only, please specify the region.

2. *Changes in the calculation of early estimates* *(In the first column, please indicate the scheme and/or the benefit(s) involved, then describe in the other columns each change in comparison with previous year estimates with a few words.)*

Scheme/Benefit (or group of benefits)	Details on the change			
	Changes in the data sources used[6]	Changes in the methods used for estimating data[7]	Changes due to conceptual adjustments[8]	Other

6. E.g. changes in the set of the data sources (new data sources, disappearing of an old one); additional information supplied by certain data sources; other changes in data sources.

7. E.g. changes in the methods used, revised methods to put the information supplied by data sources in line with the ESSPROS methodology or other changes in methods.

8. E.g. changes in the ESSPROS methodology; in the social protection system; in classifications or definitions other than ESSPROS; etc.

3. *Other information related to Quality*

3.1 *Links with national accounts*

Please specify checks/corrections to the data from national accounts to take into account conceptual differences between ESSPROS and national accounts when calculating early estimates.

NA preliminary data are the basic data source for the social protection benefits in ESSPROS early estimation, especially for benefits in kind. There are some accounting or conceptual differences, for instance: Allocation of certain items by ESSPROS functions differs from COFOG classification (for instance, consumer price subsidy on public passenger transport); Social housing benefit of the local governments is derived from extra estimation based on dwelling statistic data; The benefits provided by private pension/health insurance funds S.12 are excluded from ESSPROS. Some items of COFOG 10.7 from NA D.631 estimation are distributed to 2,3,5 ESSPROS functions not to 8 function; The data source for unemployment function is different, but the concept is the same, mainly the passive measures/expenditures of labour market policy are covered by both account systems as social protection benefit; The NACE classification is not fully appropriate to classify NA D.631 86-88 aggregates (benefits in kind) of S.15 NPISH to ESSPROS functions, so additional data source is used for the division by function: operation benefit expenditures of central government to non-governmental social protection providers, that are mainly non-profit institutions; Social welfare benefits provided by employers to their employees are excluded from ESSPROS;

3.2 Other relevant information on quality of the early estimates
Please specify any issues that could potentially affect the quality of the early estimates.

4. Dissemination

Are these estimates published in your country?[9]	At what timeliness? (in months)[10]	State any specific publication (and possibly the link)	Are they part of regular publications? (yes or not)
Yes	10 months	https://www.ksh.hu/stadat_files/szo/en/szo0001.html	Not yet.

9. Please specify "yes everything", "yes, only the following part…", "yes, but not in the ESSPROS format" or no". In case of "yes, but not in the ESSPROS format", please explain.
10. Please specify how many months after the period of reference the data are published (the period of reference for this collection was 31st December of reference year).
