Acknowledgements	3
Guide	8
Abbreviations	11

Chapter 1: Economy and finance

GDP	18
Economic output	20
GDP expenditure and investment	22
Labour productivity	24
Interest rates	26
Consumer price indices	28
Price convergence and competitiveness	30
Government public balance and debt	32
Taxes and social contributions	34
Foreign direct investment	36
Official development assistance	40

Chapter 2: Population and social conditions

World population	44
EU population	46
EU population by age class	48
Marriages and divorces	50
Births and fertility	52
Migration	54
Citizenship and asylum	56
Life expectancy and mortality	58
Health problems	60
Accidents	62
Healthcare	64
Pupils and students	66
Levels of education	68
Educational expenditure	70
Lifelong learning	72
Employment	74
Employment growth	76
Unemployment	78
Labour market demand	80
Part-time, temporary and secondary employment	82
Earnings and minimum wages	84
Low wage earners	86
Household consumption expenditure	88
Living conditions	90
Social protection	92
Governance	94

Chapter 3: Industry, trade and services

Growing and declining activities	98
Short-term statistics for industry	100
Short-term statistics for construction	102
Short-term statistics for retail trade	104
Short-term statistics for other services	106
Structure of the business economy	108
Size of manufacturing and services subsectors	110
Personnel costs	112
Profitability	114
Enterprise size-classes	116
Labour productivity by sector and enterprise size-class	118
Products sold	120
Tourism	122

Chapter 4: Agriculture, forestry and fisheries

Land use in agriculture and forestry	126
Agricultural production	128
Agricultural economic output	130
Agri-environment and rural development	132
Forestry	134
Fisheries	136

Chapter 5: International trade

Share in world trade of goods and services	140
International trade in services	142
World market for goods	144
Main EU trading partners	146
EU trade by product	148
External trade between EU Member States	150

Chapter 6: Transport

Modal breakdown of transport	154
Goods transport	156
Air and sea passenger transport	158

Chapter 7: Energy and environment

Production of primary energy	162
Production of renewable energy	164
Energy imports	166
Inland consumption, energy dependency and intensity	168
Electricity	170
Energy prices	172
Greenhouse gases	174
Urban population exposure to air pollution	176
Water resources	178
Wastewater treatment	180
Generation and treatment of waste	182
Environmental expenditure, EMAS and eco-label	184

Chapter 8: Science and technology

Human resources	188
Research and development expenditure	190
High-technology industries and knowledge intensive services	192
Patents	194
Innovation	196
Internet access of households	198
ICT use of individuals	200
ICT use of enterprises	202
E-commerce	204
Telecommunications	206
Telecommunications turnover and market share	208

Chapter 9: Europe's regions

Regional statistics background and definitions	212
Main indicators for regional data	214
Dispersion of regional employment rates	225
