

To Whom It May Concern

The Stockholm Network (SN) is pleased to enclose its submission to the European Commission's creative content online consultation. We would be very happy to continue our involvement in the process.

The **Stockholm Network** is the leading pan-European think tank and market oriented network. It is a one-stop shop for organisations seeking to work with Europe's brightest policymakers and thinkers. Today, the Stockholm Network brings together more than 130 market-oriented think tanks from across Europe, giving us the capacity to deliver local messages and locally-tailored global messages across the EU and beyond.

The **Stockholm Network Intellectual Property and Competition Programme** was established in January 2005. Dealing with the field of intellectual property across the board (including in its monthly bulletin - Know-IP™), the Programme aims to achieve three key objectives: first, to make the field of intellectual property more mainstream as well as accessible to the general public; second, to increase the interaction between specialists focusing on different aspects of intellectual property rights, and finally, and perhaps most importantly, the SN IP and Competition Programme aims to encourage discussion, as well as debate, on different burning IP issues.
