Remark: This variable may not be coherent with the age of children according to other variables (HD...) or with the information contained in the R-file of the UDB. This is due to fact that the age of persons was calculated during data-processing (not using day and month of birth and interview, but survey year and year of birth) and the information in this variable is the answer at the time of the interview.

Remark: This variable may not be coherent with the age of children according to other variables (HD...) or with the information contained in the R-file of the UDB. This is due to fact that the age of persons was calculated during data-processing (not using day and month of birth and interview, but survey year and year of birth) and the information in this variable is the answer at the time of the interview.

(a) Question not asked for everybody. This is due to the fact that the calendar of activities is asked for the 12 months prior to the survey and not for the previous year. PC010-PC012 are more complete than PC001-PC009.

More precisely, the situation for survey year N in France is as follows:

The interview takes place in October/November N and the calendar of activities asked for in the interview is October N-1 until September N. In the dataset, the calendar of activities is for January-December N-1 [Jan-Sep from the interview in N-1 and Oct-Dec from the interview in N]. As a consequence, for people

not interviewed in N-1, the calendar of activities Jan-Sep is missing. This concerns all persons interviewed for the first time in N, and unit non-response in N-1.

(a1) 1994: Old-age pension supplementary schemes (second pillar) - public and private : All attributed to 'contracted out schemes' [P01222 and P01225]

(b) Ireland: Wave 1994 and wave 1995: Occupational retirement pensions and occupational survivors pensions (linked to the former occupation of a deceased spouse) can not be distinguished and are both included in 'Old-age pensions basic schemes' (Wave 1994: P01225 and wave 1995: P02247).

- Retirement Pension from **your own or your spouse's** former employment in the Civil Service or other Irish State employment
- Retirement pension from **your own or your spouse's** former employment in semi-state or private company in Ireland?
- State, military or private pension from abroad

In wave 1995 the following question was added, but still it is not possible to distinguish clearly. J.69: Is this pension in respect of your own former employment or in respect of your spouse's former employment? (1) Resp's own former employment, (2) Spouse's former employment, (3) Both

(c) For means-tested welfare schemes, the amount has not been collected. It has only been asked whether this benefit has been received (Yes - No). Amounts have been imputed by Eurostat.

(a) Due to the fact that the Swedish dataset has been derived from the Swedish Living Conditions Survey and because households are defined as people being taxed together (couples with own children), only relationships 1,2,4 are included in the dataset. For the same reason, children aged 25 or more are considered as a separate household and no person aged 25 or more is coded as child.

Remarks:

Only people that appear in the R-file of the production database are included in the link file. No information is available for households which are only listed in the D-file of the production database.

Due to the fact that the Swedish part of the ECHP UDB is derived from a cross-sectional survey and is not a panel, there is no information available in the link file.
