About Joinup

Find out more

Joinup is a collaborative platform created by the European Commission and funded by the European Union via the Interoperability solutions for public administrations, businesses and citizens (ISA²) Programme. It offers several services that aim to help e-Government professionals share their experience with each other. We also hope to support them to find, choose, re-use, develop and implement interoperability solutions.

Is the Sharing and Reuse project useful to you?
Are we helping you to better share and reuse IT tools?

# Why Joinup @ S&R conference ?

- Main purpose of the platform is to:
  Facilitate the sharing & reuse of IT **"solutions"**

  Tools & SW
  Frameworks/Specifications
  Services

- It is referenced in the EIF:

  *"Reuse and sharing can be effectively supported **by collaborative platforms** such as Joinup"* (Principle 4 Reusability- Rec 6&7)

- It is referenced in the S&R Framework:

  *"To facilitate access to IT solutions, it is recommended to make them available on **specialised catalogues**, through a single access point, such as Joinup. "*
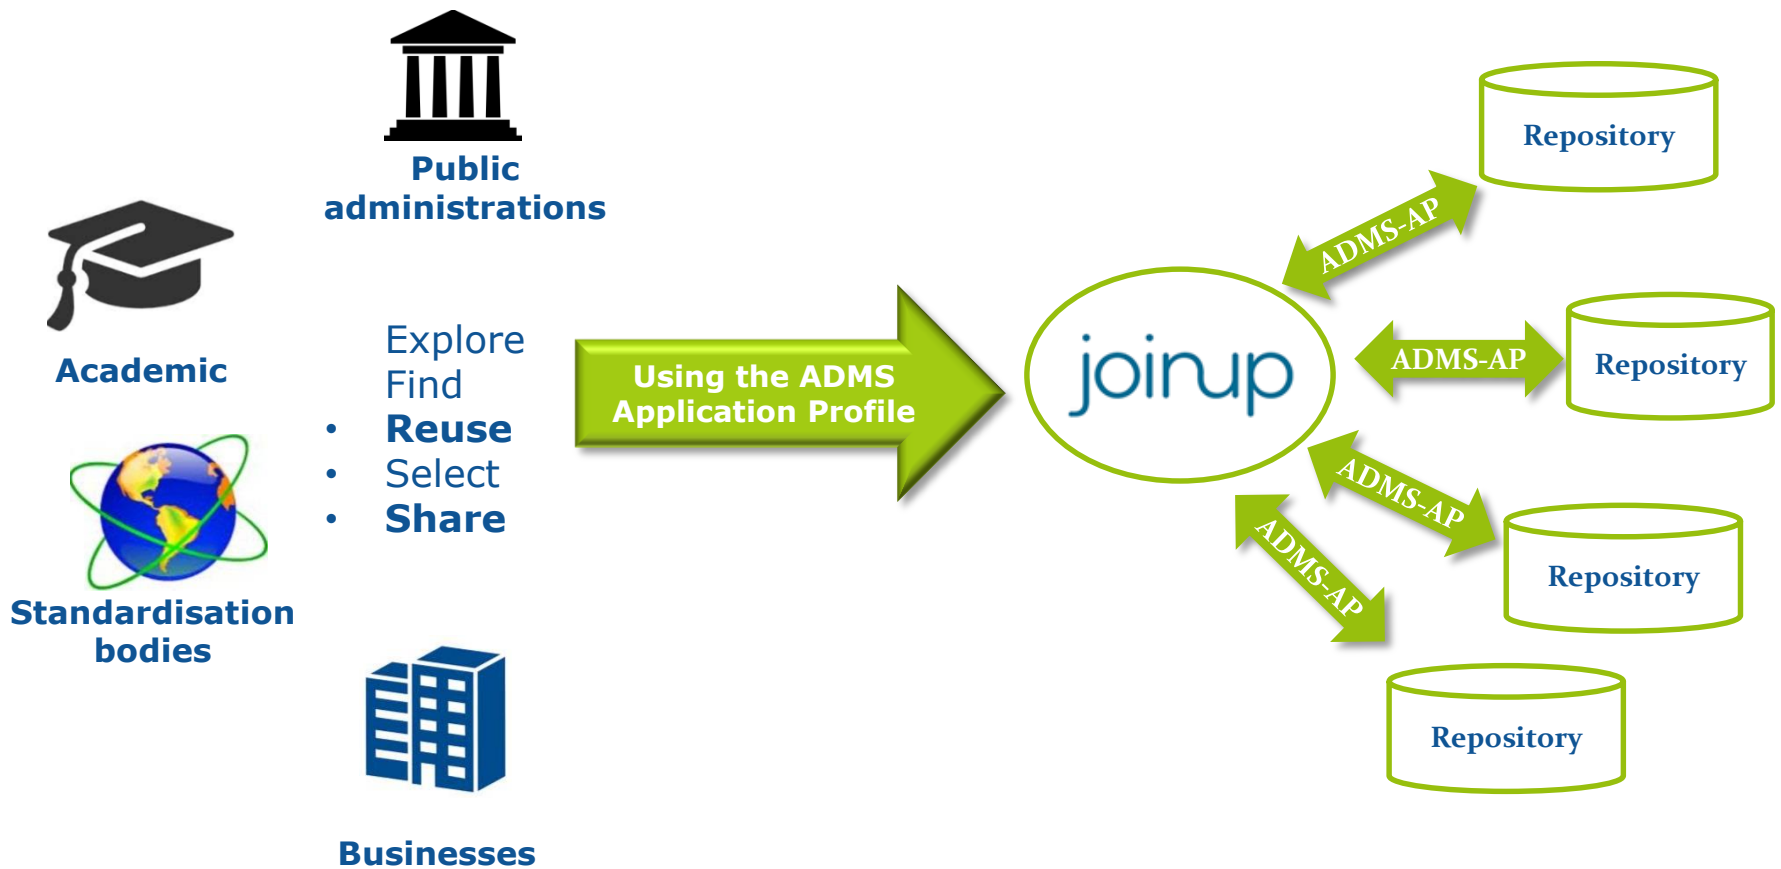

ISA²
