e-TrustEx

Electronic Trusted Exchange
Of Documents

By Natalia Aristimuño-Pérez
Head of Unit DIGIT.B2
European Commission

February 2016

e-TrustEx = Trusted Information Exchange

e-TrustEx is a **tool** that facilitates the **secure exchange** of **electronic documents** between **Public Authorities** at European, national and local level via **standardised interfaces**.

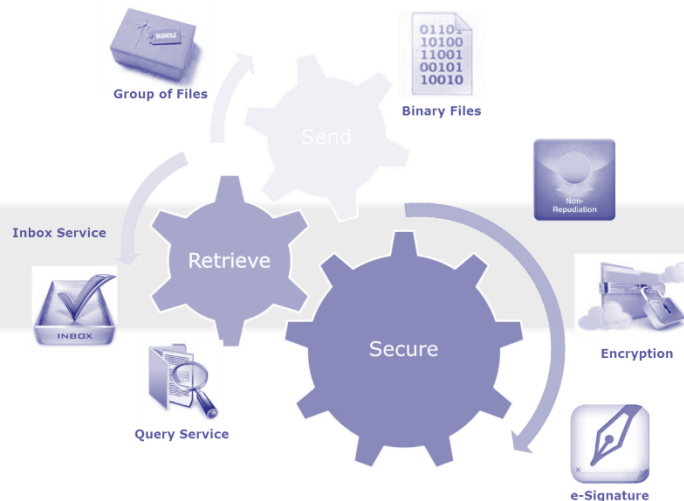

Goal

Promote **EU-wide interoperability** and re-use of existing building blocks, so as to avoid duplication of effort.

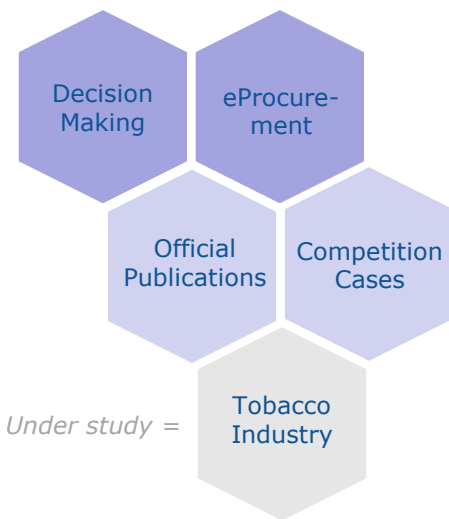

Scope & Target

The first **pilot** in 2012 covered legislative documents and competition related documents.
