1. Cumulative data for the current programming period (1 January 2014-31 December 2018)

Every year, more data are available to identify trends in applications and to present an overview of the direction of the fund's activities. The data in the following charts and Table 1 relate to 48 applications¹ submitted by Member States (MS) between 2014 and 2018 under Regulation (EU) No 1309/2013 of the European Parliament and of the Council of 17 December 2013 on the European Globalisation Adjustment Fund (2014-2020) and repealing Regulation (EC) No 1927/2006. A total of EUR 155 366 514 has been requested so far for measures in favour of 49 062 targeted beneficiaries².

Chart 1: Number of applications submitted between 2014 and 2018

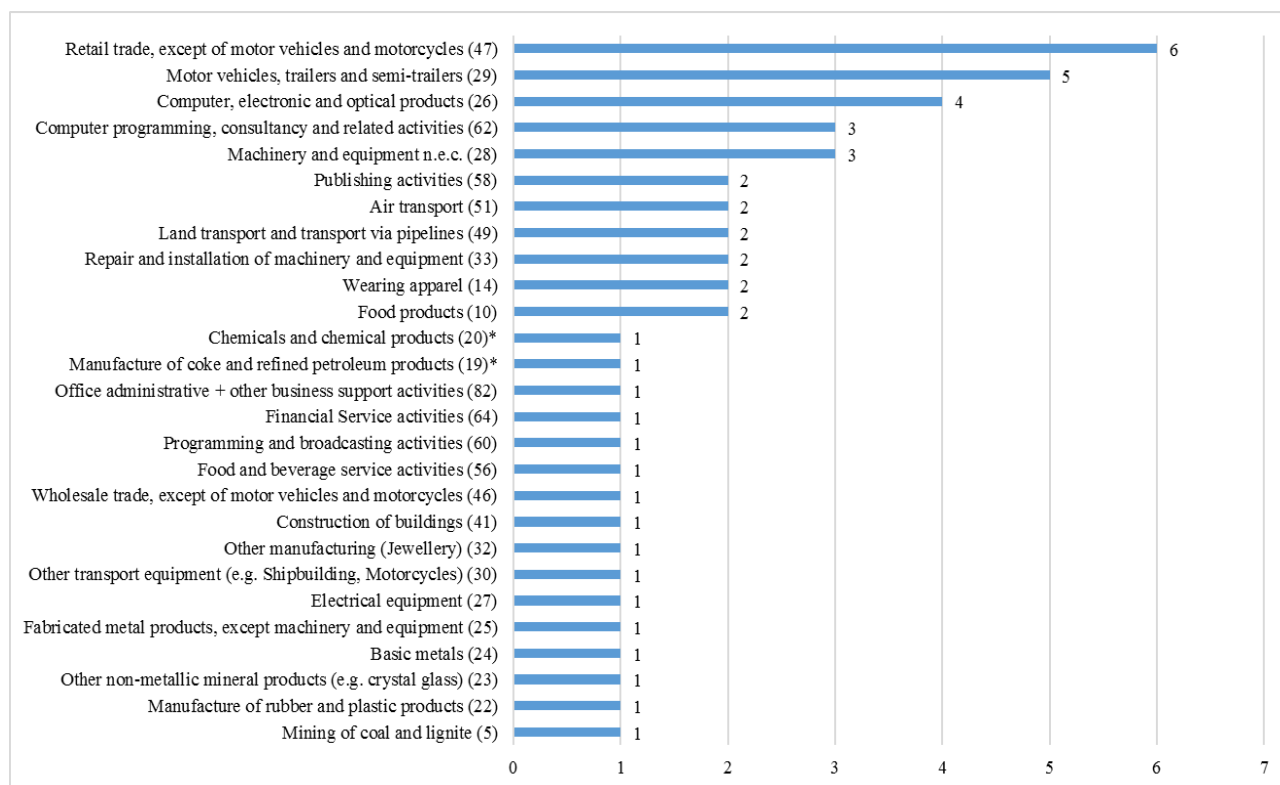

Between 2014 and 2018 the Commission received 19 crisis-related applications and 29 trade-related applications. The total number of applications received each year is volatile with an average of about 10 applications per year. As shown in Table 2 of the Annex, in the current programming period Greece has submitted the highest number of applications (8), followed by Finland (7) and Belgium (6).

¹This figure rises to 51 if we take into account the three cases withdrawn. However, withdrawn and rejected cases are not considered in the statistics.

²Number of targeted beneficiaries estimated by the Member States at the application phase.

Chart 2: Number of applications per sector* (NACE Rev. 2) between 2014 and 2018

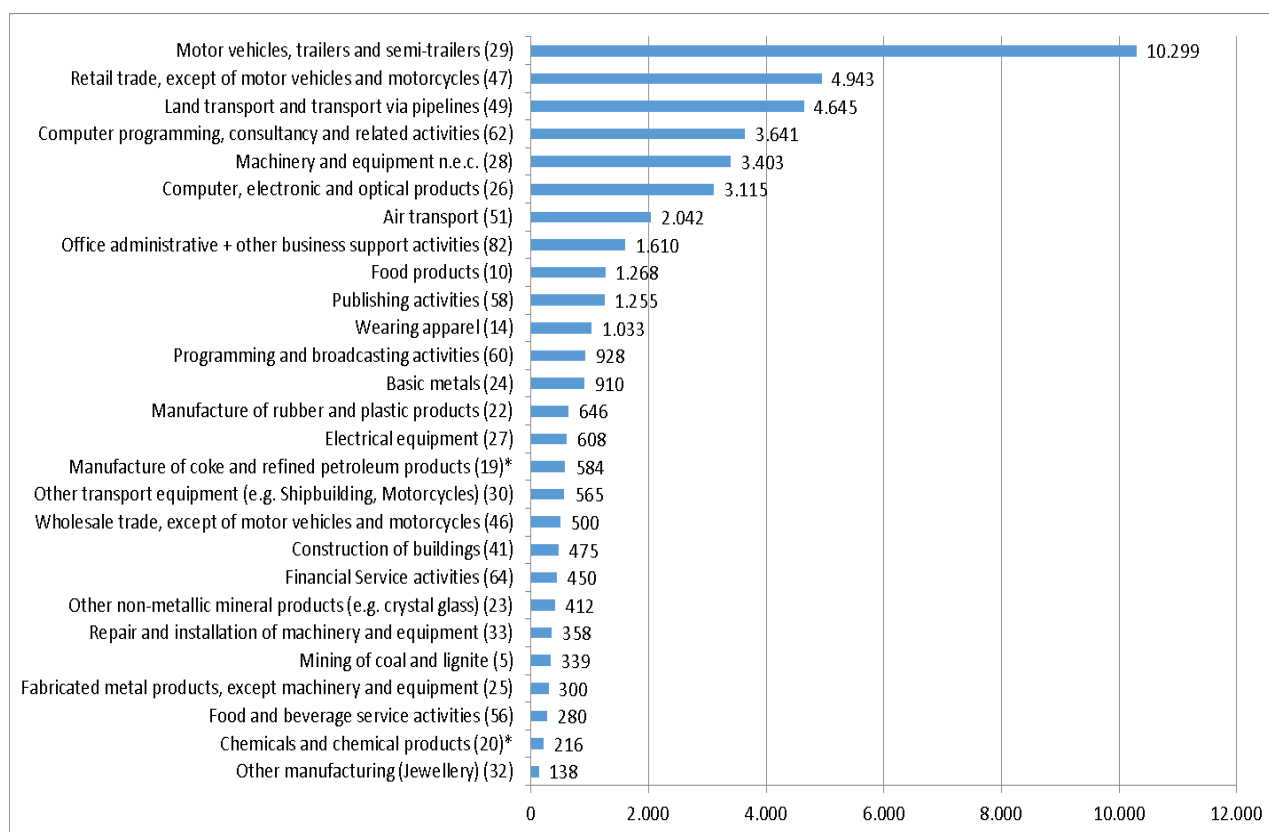

*EGF/2016/003 EE/Petroleum and chemicals case refers to two different sectors (19 and 20) and has therefore been counted twice.

Total number of sectors: 27

From 2014 to 2018 the Commission received 48 applications related to a broad range of sectors (27). The greatest number of applications was submitted for the retail trade sector (6), followed by motor vehicles, trailers and semi-trailers (5), and computer, electronic and optical products sectors (4).

Details of the applications submitted per sector are set out in Table 3 of the Annex.

Chart 3: Number of targeted workers per sector (NACE Rev. 2) between 2014 and 2018

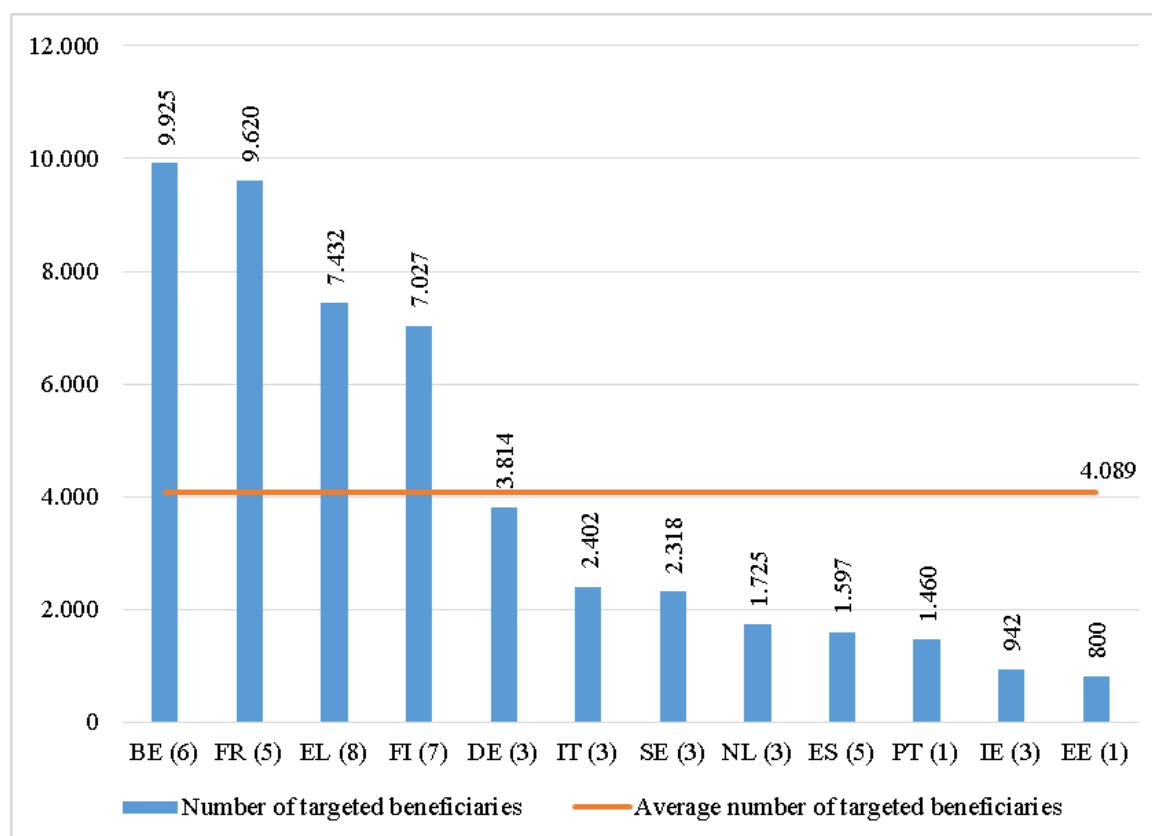

**EGF/2016/003 EE/Petroleum and chemicals case refers to two different sectors (19 and 20). The number of targeted workers in these sectors are provided on a prorata basis, reflecting the composition of the group of redundant workers.*
