## **Nutriart S.A.**

Reference	EGF/2014/001 Nutriart S.A.
Member State	Greece
Submitted to European Commission	5 February 2014
<b>Total cost of actions</b>	2 564 351 €
<b>EGF</b> contribution	1 538 611 €
	Article 4.1.(a)
<b>Intervention criterion</b>	Regulation (EC) No 1309/2013
Period of intervention	5 June 2015 – 30 April 2016
	249 workers and 245 young
People who benefited	persons not in employment,
from the assistance	education or training (NEETs)
Active employment measures provided	- Occupational guidance and job- search assistance
	- Vocational training
	- Promotion of entrepreneurship
	- Contribution to business start-up
	- Mobility allowance and job- search allowance

## **RESULTS - GOOD PRACTICES**

- At the end of the implementing period 35% of the 249 workers were employed; a majority of them (92%) as employees and 7 people (8%) as self-employed persons, while the results regarding NEETs are less positive. 94% of the participants were still unemployed whilst 15 NEETs (6%) had found a job, 11 as employees and 4 as self-employed persons.
- Twelve months after the intervention, in April 2017, 48,6% of the workers have a job (a rise of 13 percent points), but the number of self-employed persons has dropped from 7 to 6. Out of 245 NEETs, 89 has a job (75 as employees and 14 as self-employed persons) an increase by 30 percentage points, from 6% to 36%.
- These results should be seen against a very difficult employment situation for young job seekers. According to Eurostat data, unemployment rates in the territories concerned, over the period 2014-2016 (data for 2017 not yet available), were around 52% in Central Macedonia and between 52.5% (2014) and 45.4% (2016) in Attica. The improvement in employment results seems to go hand in hand with the decrease in the unemployment rate among young people in the Attica region.
- Due to the difficult situation of the Greek economy over the period 2014-2015, the national cofunding was made available one year after the planned start of the measures, this resulting in eleven months of effective implementation (from June 15 to April 16).
