II. General conditions

Article II.1 Performance of the Contract

II.1.1. The Contractor shall perform the Contract to the highest professional standards. The Contractor shall have sole responsibility for complying with any legal obligations incumbent on him, notably those resulting from employment, tax and social legislation.

II.1.2. The Contractor shall have sole responsibility for taking the necessary steps to obtain any permit or licence required for performance of the Contract under the laws and regulations in force at the place where the tasks assigned to him are to be executed.

II.1.3. Without prejudice to Article II.3 any reference made to the Contractor's staff in the Contract shall relate exclusively to individuals involved in the performance of the Contract.

II.1.4. The Contractor must ensure that any staff performing the Contract have the professional qualifications and experience required for the execution of the tasks assigned to him.

II.1.5. The Contractor shall neither represent the Commission nor behave in any way that would give such an impression. The Contractor shall inform third parties that he does not belong to the European public service.

II.1.6. The Contractor shall have sole responsibility for the staff who execute the tasks assigned to him.

The Contractor shall make provision for the following employment or service relationships with his staff:

- staff executing the tasks assigned to the Contractor may not be given orders direct by the Commission;
- the Commission may not under any circumstances be considered to be the staff's employer and the said staff shall undertake not to invoke in respect of the Commission any right arising from the contractual relationship between the Commission and the Contractor.

II.1.7. In the event of disruption resulting from the action of a member of the Contractor's staff working on Commission premises or in the event of the expertise of a member of the Contractor's staff failing to correspond to the profile required by the Contract, the Contractor shall replace him without delay. The Commission shall have the right to request the replacement of any such member of staff, stating its reasons for so doing. Replacement staff must have the necessary qualifications and be capable of performing the Contract under the same contractual conditions. The Contractor shall be responsible for any delay in the execution of the tasks assigned to him resulting from the replacement of staff in accordance with this Article.

II.1.8. Should any unforeseen event, action or omission directly or indirectly hamper execution of the tasks, either partially or totally, the Contractor shall immediately and on his own initiative record it and report it to the Commission. The report shall include a description of the problem and an indication of the date on which it started and of the remedial action taken by the Contractor to ensure full compliance with his obligations under the Contract. In such event the Contractor shall give priority to solving the problem rather than determining liability.

II.1.9. Should the Contractor fail to perform his obligations under the Contract in accordance with the provisions laid down therein, the Commission may - without prejudice to its right to terminate the Contract - reduce or recover payments in proportion to the scale of the failure. In addition, the Commission may impose penalties or liquidated damages provided for in Article II.16.

A copy of all the relevant insurance contracts shall be sent to the Commission should it so request.

Article II.3 Conflict of Interests

II.3.1. The Contractor shall take all necessary measures to prevent any situation that could compromise the impartial and objective performance of the Contract. Such conflict of interests could arise in particular as a result of economic interest, political or national affinity, family or emotional ties, or any other relevant connection or shared interest. Any conflict of interests which could arise during performance of the Contract must be notified to the Commission in writing without delay. In the event of such conflict, the Contractor shall immediately take all necessary steps to resolve it.

The Commission reserves the right to verify that such measures are adequate and may require additional measures to be taken, if necessary, within a time limit which it shall set. The Contractor shall ensure that his staff, board and directors are not placed in a situation which could give rise to conflict of interests. Without prejudice to Article II.1 the Contractor shall replace, immediately and without compensation from the Commission, any member of his staff exposed to such a situation.

II.3.2. The Contractor shall abstain from any contact likely to compromise his independence.

II.3.3. The Contractor declares:

- that he has not made and will not make any offer of any type whatsoever from which an advantage can be derived under the Contract,
- that he has not granted and will not grant, has not sought and will not seek, has not attempted and will not attempt to obtain, and has not accepted and will not accept, any advantage, financial or in kind, to or from any party whatsoever, where such advantage constitutes an illegal practice or involves corruption, either directly or indirectly, inasmuch as it is an incentive or reward relating to performance of the Contract.

II.3.4. The Contractor shall pass on all the relevant obligations in writing to his staff, board, and directors as well as to third parties involved in performance of the Contract. A copy of the instructions given and the undertakings made in this respect shall be sent to the Commission should it so request.

Article II.4 Payments

II.4.1. Pre-financing

Where required by Article I.4.1, the Contractor shall provide a financial guarantee in the form of a bank guarantee or equivalent supplied by a bank or an authorised financial institution (guarantor) equal to the amount indicated in the same article to cover pre-financing under the Contract. Such guarantee

may be replaced by a joint and several guarantee by a third party. The guarantor shall pay to the Commission at its request an amount corresponding to payments made by it to the Contractor which have not yet been covered by equivalent work on his part. The guarantor shall stand as first-call guarantor and shall not require the Commission to have recourse against the principal debtor (the Contractor). The guarantee shall specify that it enters into force at the latest on the date on which the Contractor receives the pre-financing. The Commission shall release the guarantor from its obligations as soon as the Contractor has demonstrated that any pre-financing has been covered by equivalent work. The guarantee shall be retained until the pre-financing has been deducted from interim payments or payment of the balance to the Contractor. It shall be released the following month. The cost of providing such guarantee shall be borne by the Contractor.

II.4.2. *Interim payment*

At the end of each of the periods indicated in Annex I the Contractor shall submit to the Commission a formal request for payment accompanied by those of the following documents which are provided for in the Special Conditions:

- an interim technical report in accordance with the instructions laid down in Annex I;
- the relevant invoices indicating the reference number of the Contract to which they refer;
- statements of reimbursable expenses in accordance with Article II.7.

If the report is a condition for payment, on receipt the Commission shall have the period of time indicated in the Special Conditions in which:

- to approve it, with or without comments or reservations, or suspend such period and request additional information; or
- to reject it and request a new report.

If the Commission does not react within this period, the report shall be deemed to have been approved. Approval of the report does not imply recognition either of its regularity or of the authenticity, completeness or correctness of the declarations or information enclosed. Where the Commission requests a new report because the one previously submitted has been rejected, this shall be submitted within the period of time indicated in the Special Conditions. The new report shall likewise be subject to the above provisions.

II.4.3. *Payment of the balance*

Within sixty days of completion of the tasks referred to in Annex I the Contractor shall submit to the Commission a formal request for payment accompanied by those of the following documents which are provided for in the Special Conditions:

- a final technical report in accordance with the instructions laid down in Annex I;
- the relevant invoices indicating the reference number of the Contract to which they refer;
- statements of reimbursable expenses in accordance with Article II.7.

If the report is a condition for payment, on receipt the Commission shall have the period of time indicated in the Special Conditions in which:

- to approve it, with or without comments or reservations, or suspend such period and request additional information; or
- to reject it and request a new report.

If the Commission does not react within this period, the report shall be deemed to have been approved. Approval of the report does not imply recognition either of its regularity or of the authenticity, completeness or correctness of the declarations and information enclosed. Where the Commission requests a new report because the one previously submitted has been rejected, this shall be submitted within the period of time indicated in the Special Conditions. The new report shall likewise be subject to the above provisions.

Article II.5 General Provisions concerning Payments

II.5.1. Payments shall be deemed to have been made on the date on which the Commission's account is debited.

II.5.2. The payment periods referred to in Article I.4 may be suspended by the Commission at any time if it informs the Contractor that his payment request is not admissible, either because the amount

is not due or because the necessary supporting documents have not been properly produced. In case of doubt on the eligibility of the expenditure indicated in the payment request, the Commission may suspend the time limit for payment for the purpose of further verification, including an on-the-spot check, in order to ascertain, prior to payment, that the expenditure is eligible.

The Commission shall notify the Contractor accordingly by registered letter with acknowledgment of receipt or equivalent. Suspension shall take effect from the date of dispatch of the letter. The remainder of the period referred to in Article I.4 shall begin to run again once the suspension has been lifted.

II.5.3. In the event of late payment the Contractor may claim interest within two months of receiving the payment. Interest shall be calculated at the rate applied by the European Central Bank to its most recent main refinancing operations (*"the reference rate"*) plus seven percentage points (*"the margin"*). The reference rate in force on the first day of the month in which the payment is due shall apply. Such interest rate is published in the C series of the Official Journal of the European Union. Interest shall be payable for the period elapsing from the calendar day following expiry of the time limit for payment up to the day of payment. Suspension of payment by the Commission may not be deemed to constitute late payment.

Article II.6 Recovery

II.6.1. If total payments made exceed the amount actually due under the Contract or if recovery is justified in accordance with the terms of the Contract, the Contractor shall reimburse the appropriate amount in euro on receipt of the debit note, in the manner and within the time limits set by the Commission.

II.6.2. In the event of failure to pay by the deadline specified in the request for reimbursement, the sum due shall bear interest at the rate indicated in Article II.5.3. Interest shall be payable from the calendar day following the due date up to the calendar day on which the debt is repaid in full.

II.6.3. The Commission may, after informing the Contractor, recover amounts established as certain, of a fixed amount and due by offsetting, in cases where the Contractor also has a claim on the Communities that is certain, of a fixed amount and due. The Commission may also claim against the guarantee, where provided for.

Article II.7 Reimbursements

II.7.1. Where provided by the Special Conditions or by Annex I, the Commission shall reimburse the expenses which are directly connected with execution of the tasks on production of original supporting documents, including receipts and used tickets.

II.7.2. Travel and subsistence expenses shall be reimbursed, where appropriate, on the basis of the shortest itinerary.

II.7.3. Travel expenses shall be reimbursed as follows:

- (a) travel by air shall be reimbursed up to the maximum cost of an economy class ticket at the time of the reservation;
- (b) travel by boat or rail shall be reimbursed up to the maximum cost of a first class ticket;
- (c) travel by car shall be reimbursed at the rate of one first class rail ticket for the same journey and on the same day;
- (d) travel outside Community territory shall be reimbursed under the general conditions stated above provided the Commission has given its prior written agreement.

II.7.4. Subsistence expenses shall be reimbursed on the basis of a daily allowance as follows:

- (a) for journeys of less than 200 km (return trip) no subsistence allowance shall be payable;
- (b) daily subsistence allowance shall be payable only on receipt of a supporting document proving that the person concerned was present at the place of destination;
- (c) daily subsistence allowance shall take the form of a flat-rate payment to cover all subsistence expenses, including accommodation, meals, local transport, insurance and sundries;

- (d) daily subsistence allowance, where applicable, shall be reimbursed at the rate specified in Article I.3.3.

II.7.5. The cost of shipment of equipment or unaccompanied luggage shall be reimbursed provided the Commission has given prior written authorisation.

Article II.8 Ownership of the Results – Intellectual and Industrial Property

Any results or rights thereon, including copyright and other intellectual or industrial property rights, obtained in performance of the Contract, shall be owned solely by the Community, which may use, publish, assign or transfer them as it sees fit, without geographical or other limitation, except where industrial or intellectual property rights exist prior to the Contract being entered into.

Article II.9 Confidentiality

II.9.1. The Contractor undertakes to treat in the strictest confidence and not make use of or divulge to third parties any information or documents which are linked to performance of the Contract. The Contractor shall continue to be bound by this undertaking after completion of the tasks.

II.9.2. The Contractor shall obtain from each member of his staff, board and directors an undertaking that they will respect the confidentiality of any information which is linked, directly or indirectly, to execution of the tasks and that they will not divulge to third parties or use for their own benefit or that of any third party any document or information not available publicly, even after completion of the tasks.

Article II.10 Use, Distribution and Publication of Information

II.10.1. The Contractor shall authorise the Commission to process, use, distribute and publish, for whatever purpose, by whatever means and on whatever medium, any data contained in or relating to the Contract, in particular the identity of the Contractor, the subject matter, the duration, the amount paid and the reports. Where personal data is concerned, Article I.8 shall apply.

II.10.2. Unless otherwise provided by the Special Conditions, the Commission shall not be required to distribute or publish documents or information supplied in performance of the Contract. If it decides not to publish the documents or information supplied, the Contractor may not have them distributed or published elsewhere without prior written authorisation from the Commission.

II.10.3. Any distribution or publication of information relating to the Contract by the Contractor shall require prior written authorisation from the Commission and shall mention the amount paid by the Community. It shall state that the opinions expressed are those of the Contractor only and do not represent the Commission's official position.

II.10.4. The use of information obtained by the Contractor in the course of the Contract for purposes other than its performance shall be forbidden, unless the Commission has specifically given prior written authorisation to the contrary.

Article II. 11 Taxation

II.11.1. The Contractor shall have sole responsibility for compliance with the tax laws which apply to him. Failure to comply shall make the relevant invoices invalid.

II.11.2. The Contractor recognises that the Commission is, as a rule, exempt from all taxes and duties, including value added tax (VAT), pursuant to the provisions of Articles 3 and 4 of the Protocol on the Privileges and Immunities of the European Communities.

II.11.3. The Contractor shall accordingly complete the necessary formalities with the relevant authorities to ensure that the goods and services required for performance of the Contract are exempt from taxes and duties, including VAT.

II.11.4. Invoices presented by the Contractor shall indicate his place of taxation for VAT purposes and shall specify separately the amounts not including VAT and the amounts including VAT.

Article II.12 Force Majeure

II.12.1. *Force majeure* shall mean any unforeseeable and exceptional situation or event beyond the control of the contracting parties which prevents either of them from performing any of their obligations under the Contract, was not due to error or negligence on their part or on the part of a subcontractor, and could not have been avoided by the exercise of due diligence. Defects in equipment or material or delays in making it available, labour disputes, strikes or financial problems cannot be invoked as *force majeure* unless they stem directly from a relevant case of *force majeure*.

II.12.2. Without prejudice to the provisions of Article II.1.8, if either contracting party is faced with *force majeure*, it shall notify the other party without delay by registered letter with acknowledgment of receipt or equivalent, stating the nature, likely duration and foreseeable effects.

II.12.3. Neither contracting party shall be held in breach of its contractual obligations if it has been prevented from performing them by *force majeure*. Where the Contractor is unable to perform his contractual obligations owing to *force majeure*, he shall have the right to remuneration only for tasks actually executed.

II.12.4. The contracting parties shall take the necessary measures to reduce damage to a minimum.

Article II.13 Subcontracting

II.13.1. The Contractor shall not subcontract without prior written authorisation from the Commission nor cause the Contract to be performed in fact by third parties.

II.13.2. Even where the Commission authorises the Contractor to subcontract to third parties, he shall none the less remain bound by his obligations to the Commission under the Contract and shall bear exclusive liability for proper performance of the Contract.

II.13.3. The Contractor shall make sure that the subcontract does not affect rights and guarantees to which the Commission is entitled by virtue of the Contract, notably Article II.17.

Article II.14 Assignment

II.14.1. The Contractor shall not assign the rights and obligations arising from the Contract, in whole or in part, without prior written authorisation from the Commission.

II.14.2. In the absence of the authorisation referred to in 1 above, or in the event of failure to observe the terms thereof, assignment by the Contractor shall not be enforceable against and shall have no effect on the Commission.

Article II.15 Termination by the Commission

II.15.1. The Commission may terminate the Contract in the following circumstances:

- (a) where the Contractor is being wound up, is having his affairs administered by the courts, has entered into an arrangement with creditors, has suspended business activities, is the subject of proceedings concerning those matters, or is in any analogous situation arising from a similar procedure provided for in national legislation or regulations;
- (b) where the Contractor has been convicted of an offence concerning his professional conduct by a judgment which has the force of *res judicata*;

- (c) where the Contractor has been guilty of grave professional misconduct proven by any means which the contracting authority can justify;
- (d) where the Contractor has not fulfilled obligations relating to the payment of social security contributions or the payment of taxes in accordance with the legal provisions of the country in which he is established or with those of the country applicable to the Contract or those of the country where the Contract is to be performed;
- (e) where the Commission seriously suspects the Contractor of fraud, corruption, involvement in a criminal organisation or any other illegal activity detrimental to the Communities' financial interests;
- (f) where the Contractor is in breach of his obligations under Article II.3;
- (g) where the Contractor was guilty of misrepresentation in supplying the information required by the Commission as a condition of participation in the Contract procedure or failed to supply this information;
- (h) where a change in the Contractor's legal, financial, technical or organisational situation could, in the Commission's opinion, have a significant effect on the performance of the Contract;
- (i) where execution of the tasks has not actually commenced within three months of the date foreseen, and the new date proposed, if any, is considered unacceptable by the Commission;
- (j) where the Contractor is unable, through his own fault, to obtain any permit or licence required for performance of the Contract;
- (k) where the Contractor, after receiving formal notice in writing to comply, specifying the nature of the alleged failure, and after being given the opportunity to remedy the failure within a reasonable period following receipt of the formal notice, remains in serious breach of his contractual obligations.

II.15.2. In case of *force majeure*, notified in accordance with Article II.12, either contracting party may terminate the Contract, where performance thereof cannot be ensured for a period corresponding to at least to one fifth of the period laid down in Article I.2.3.

II.15.3. Prior to termination under point e), h) or k), the Contractor shall be given the opportunity to submit his observations.

Termination shall take effect on the date on which a registered letter with acknowledgment of receipt terminating the Contract is received by the Contractor, or on any other date indicated in the letter of termination.

II.15.4. Consequences of termination

In the event of the Commission terminating the Contract in accordance with this article and without prejudice to any other measures provided for in the Contract, the Contractor shall waive any claim for consequential damages, including any loss of anticipated profits for uncompleted work. On receipt of the letter terminating the Contract, the Contractor shall take all appropriate measures to minimise costs, prevent damage, and cancel or reduce his commitments. He shall draw up the documents required by the Special Conditions for the tasks executed up to the date on which termination takes effect, within a period not exceeding sixty days from that date.

The Commission may claim compensation for any damage suffered and recover any sums paid to the Contractor under the Contract.

On termination the Commission may engage any other contractor to complete the services. The Commission shall be entitled to claim from the Contractor all extra costs incurred in making good and completing the services, without prejudice to any other rights or guarantees it has under the Contract.

Article II.16 Liquidated Damages

Should the Contractor fail to perform his obligations under the Contract within the time limits set by the Contract, then, without prejudice to the Contractor's actual or potential liability incurred in relation to the Contract or to the Commission's right to terminate the Contract, the Commission may decide to impose liquidated damages of 0.2% of the amount specified in Article I.3.1 per calendar day of delay. The Contractor may submit arguments against this decision within thirty days of notification by registered letter with acknowledgement of receipt or equivalent. In the absence of reaction on his part or of written withdrawal by the Commission within thirty days of the receipt of such arguments, the

decision imposing the liquidated damages shall become enforceable. These liquidated damages shall not be imposed where there is provision for interest for late completion. The Commission and the Contractor expressly acknowledge and agree that any sums payable under this article are in the nature of liquidated damages and not penalties, and represent a reasonable estimate of fair compensation for the losses that may be reasonably anticipated from such failure to perform obligations.

Article II.17 Checks and Audits

II.17.1. Pursuant to Article 142 of the Financial Regulation applicable to the general budget of the European Communities, the European Court of Auditors shall be empowered to audit the documents held by the natural or legal persons receiving payments from the budget of the European Communities from signature of the Contract up to five years after payment of the balance.

II.17.2. The Commission or an outside body of its choice shall have the same rights as the European Court of Auditors for the purpose of checks and audits limited to compliance with contractual obligations from signature of the Contract up to five years after payment of the balance.

II.17.3. In addition, the European Anti Fraud Office may carry out on-the-spot checks and inspections in accordance with Council Regulation (Euratom, EC) No 2185/96 and Parliament and Council Regulation (EC) No 1073/1999 from signature of the Contract up to five years after payment of the balance.

Article II.18 Amendments

Any amendment to the Contract shall be the subject of a written agreement concluded by the contracting parties. An oral agreement shall not be binding on the contracting parties.

Article II.19 Suspension of the Contract

Without prejudice to the Commission's right to terminate the Contract, the Commission may at any time and for any reason suspend execution of the tasks under the Contract or any part thereof. Tender Specifications and Monitoring

ANNEX I Tender No. VT/2007/018 of

1. Title of the contract

Organising training and setting up networks on the European co-ordination of social security schemes (see draft contract VC/2007/0188)

2. Background

In the interest of free movement of persons as envisaged in the EC Treaty, national social security schemes, pursuant to Article 42 of the Treaty, are co-ordinated by Regulation (EC) No. 1408/71 of 14 June 1971³ and its implementing Regulation (EC) No. 574/72⁴. By the scope of Regulation (EC) No 859/2003 of 14 May 2003⁵, these regulations also apply to nationals of States which are not part of the European Union when such a person resides legally within the European Union. Other legal instruments are related to this co-ordination system such as international agreements concluded by the European Community. Community social security coordination is also influenced by certain aspects of Community law in the field of internal market.

The Community co-ordinating instruments are constantly being amended and adapted to developments in national social security systems and in national and Community law. Furthermore, amendments due to the accession of new Member States to the European Union are brought about by the Accession Treaties.

On 29 April 2004 the European Parliament and the Council agreed on a complete review of the co-ordination system by adopting Regulation (EC) no 883/2004⁶. The new system is expected to become applicable by 2009.

The implementation of the Community coordination provisions have generated a substantial amount of jurisprudence linked to the free movement of persons and social policy. The purpose of Community social security co-ordination is to ensure that persons moving within the European Union do not suffer any loss of social security rights. However, the field of Community social security coordination may at times be experienced as complex and difficult to interpret by national authorities and institutions, national courts and the Community Institutions.

The implementation of the Community co-ordination provisions has in the first place to be guaranteed at national level. In the Member States this involves public authorities, competent institutions, social partners, judges, representatives of non-governmental organisations (NGO) and other experts. They need to take decisions or give advice in numerous cases submitted to them. A lot of expertise is already available at the level of Member States, in particular in public administrations and in social security institutions. Representatives of these bodies liaise at national level and often attend meetings at Community level to discuss problems of implementation.

³ Council Regulation (EEC) No 1408/71 of 14 June 1971 on the application of social security schemes to employed persons, to self-employed persons and to members of their families moving within the Community (OJ No L 28 of 30.1.1997, p. 1). See the consolidated version on: http://europa.eu.int/eur-lex/en/consleg/main/1971/en_1971R1408_index.html.

⁴ Council Regulation (EEC) No 574/72 laying down the procedure for implementing Regulation (EEC) No 1408/71 (OJ No L 28 of 30.1.1997, p. 102. See the consolidated version on: http://europa.eu.int/eur-lex/en/consleg/main/1972/en_1972R0574_index.html.

⁵ OJ No L124 of 20.5.2003, p. 1.

⁶ OJ No L166 of 30.4.2004, p. 1.

However, other stakeholders involved like social partners, NGO's, judges, lawyers and other independent experts confronted with problems of implementation often lack such opportunities. There is clear need for strengthening their expertise as well as for networking at national level between these stakeholders and with public authorities and social security institutions. The training and contacts at national level could provide the opportunity and to serve as a source of information for reporting to the Commission on problems of implementation met at national level.

The objective of social security coordination can only be achieved if the Community co-ordination provisions are well adjusted and in coherence with the economic and social developments in the national social security legislations it aims to co-ordinate. Furthermore the Community coordination provisions must also be in conformity with and reinforce Community policy for economic and social progress as established under the Lisbon Strategy and the goals set there for sustained economic growth, more and better jobs and greater social cohesion. To this end an expert group should be set up to analyse, with regard to given topics, where these rules need to be adapted in order to fulfil these objectives.

3. Subject of the contract

Language

- training shall in principle be given in the national language(s) of the Member State concerned and interpretation into the(se) language(s) should be foreseen for those parts of the training not given in the(se) language(s). Interpretation into English, French or German should also been foreseen in case trainers or representatives of the Commission should not understand (one of) the national language(s) of the Member State concerned.

The contractor shall submit within six weeks after the signing of the contract a detailed planning of the seminars for approval to the Commission services.

Task 2

Ensuring a follow-up to these training seminars. The follow-up shall consist in building in each of the Member States a network between trainers and participants of the seminars in particular by facilitating, notably via internet facilities, regular contacts between them. Other experts available in the Member State could also be part of that network. It is to be observed that processing of personal data required for the purposes of the network is subject to national law adopted for the implementation of Directive 95/46/EC⁷.

Trainers located in the Member State concerned should keep themselves available after the training session for responding to questions the participants might wish to submit to them. The co-organiser of each of the Member States shall co-ordinate the network in his/her Member State.

Task 3

The Contractor shall maintain and keep up to date two data bases established under the previous Commission project on "Organising training and setting up networks on the European co-ordination of social security schemes, Contract VC/2006/940 awarded to Gent University and ending on 10 December 2007.

⁷ Directive 95/46/EC of the European Parliament and of the Council of 24 October 1995 on the protection of individuals with regard to the processing of personal data and on the free movement of such data.

The contact data base on networking contains the names and contact details of people having registered as participants in the network set up under the above mentioned contract.

The resources data base contains the legal text of Regulations 1408/71 and 574/72 as well as related case-law and Decisions of the Administrative Commission. It also contains other documentation relating to Community social security coordination.

On the award of the Contract, the Commission will, by mutual consent with the Contractor, set a date by which the Contractor will be provided with all appropriate functional and technical specifications required for a satisfactory handover to the Contractor of the contact data base on networking and the resource database. The Commission will furthermore provide all necessary functional and technical material necessary for the maintenance and updating of these two databases. The handover is, of course, subject to the provisions of Regulation (EC) No 45/2001 of the European Parliament and of the Council of 18 December 2000 on the protection of individuals with regard to the processing of personal data by the Community institutions and bodies and on the free movement of such data.

Task 4

Reporting annually to the Commission on problems of implementation of relevant Community law. These reports should build in the first place on the experience with the training seminars in particular on points raised by the participants. They should also be based on other information available to the trainers, such as developments in relevant national case law.

The Contractor's appreciation and observations on national and EU-level developments will be useful to the Commission to form a clear idea of the situation, trends and perspectives.

The report shall present its findings in a concise manner. It shall present each problem by a clear description of the factual and legal facts that are pertinent for the understanding of the problem. The report shall analyse the problem in relation to national and Community law and suggest, if possible, the legal or other solutions that seems appropriate.

The draft report and its executive summary should be submitted to the Commission in English, no later than one month before the end of the 12-calendar month contract's period of performance, contain no more than 100 pages and delivered in an electronic print-ready form (PDF format) as well as paper versions (5 copies).

Task 5

The objective of social security coordination as provided for in Article 42 of the EC Treaty is to facilitate the free movement of persons by the protection of the rights acquired or in the process of being acquired by migrant persons.

This can only be achieved if the Community co-ordination provisions take sufficiently into account developments in national legislation of Member states. Furthermore the Community coordination provisions must also be in conformity with and reinforce Community policy for economic and social progress as established under the Lisbon Strategy and the goals set there. Therefore, they should reply to the needs caused by new patterns of migration.

It should be recalled that the Community social security coordination rules are the expression of a political will to establish rules which in the everyday reality of migrant persons are understandable, and to provide them, without administrative complications, with the protection needed to promote and enhance personal mobility within the European Union, which is an essential element of the realisation of the Lisbon goal of sustained economic growth, more and better jobs and greater social cohesion.

To this end the Contractor shall set up a group of 4 - 8 experts having an overall knowledge of the European coordination rules to analyse where these rules need to be adapted in order to fulfil the aforementioned goals and to develop possible ways how to obtain these goals.

In the first stage this analysis should focus on:

- the question whether the rules determining the applicable legislation for cross- border situations laid down in Regulation 883/04 meet the needs caused by new patterns of mobility,

such as workers temporarily exercising frequently short term activities in various Member states or artists who often perform work in various Member states either as an employed or as an self-employed person.

- The relationship and interaction between the Community regulations coordinating the social security schemes of Member states and Directive 2004/38/EC⁸ dealing with the right to move and to reside within the Community.

In a later stage other questions to be examined shall be part of the agreement between the Commission and the Contractor to extend the contract.

The Contractor shall present its finding in a report which shall provide a full description of the analysis and the possible ways to obtain the set goals.

The draft report and its executive summary should be submitted to the European Commission in English, no later than one month before the end of the 12-calendar month contract's period of performance, contain no more than 100 pages and delivered in an electronic print-ready form (PDF format) as well as paper versions (5 copies).

Task 6

The Contractor shall organise once a year a meeting in Belgium just before the end of the contract period and after the draft reports mentioned under "Task 4 and Task 5" have been made available. This meeting should be attended by the persons representing the Contractor and by the co-organisers of the seminars of each of the Member States, as well as the experts forming the group set up under "Task 5" above. Commission's representatives of Unit E/3 of Employment, Social Affairs and Equal Opportunities DG must be invited to this meeting. The meeting should enable the participants to discuss the outcome of the seminars and the reports submitted by the Contractor and to make plan for the following year.

The Contractor shall prepare the minutes of this meeting. These minutes must be approved by the Commission before they are distributed.

All the expenses arising from the meetings will be included in the total price of the contract.

Task 7

Administrative and financial management of the contract with the Commission and of subcontractors.

The contracts with co-organisers and trainers, as well as the experts of the group mentioned above under "Task 5" shall be concluded by and on the responsibility of the Contractor, who will be responsible for their administrative and financial management. These contracts must give precise details of the tasks to be accomplished.

If, during the contract period, an enlargement of the EU takes place and consequently new Member States participate in this network, an extension of the contract will be made by negotiated procedure according to Article 126(1)(f) of Commission Regulation No. 2342/2002 (EC, Euratom) laying down detailed rules for the implementation of Council Regulation (EC, Euratom) No. 1605/2002 on the Financial Regulation applicable to the general budget of the European Communities⁹
