## Introduction

The aim of this report is to provide an overview of beneficiaries of awarded grants and intermediaries of the financial instruments under the Entrepreneurship and Innovation Programme (EIP) in 2011. The data is compiled in a way that makes it possible to present the situation for each participating country in the EIP.

The structure of this report is divided into five “blocks” to reflect the areas under the EIP in which grants are awarded.

1. Enterprise Europe Network
2. Innovation measures
3. Eco-innovation measures
4. Other grants under the EIP
5. CIP Financial instruments

These five blocks represent approximately 90% of the EIP budget. With such coverage the overview offers a good picture of how these funds have been distributed. The remaining approximately 10% of the actions under the EIP mainly cover procurement.<sup>1</sup>

The grant agreements with the partners of the Enterprise Europe Network will be ready for signature by the end of 2012, beginning of 2013. The global commitments have been made and the individual commitments will be done once the contracts are prepared for signature. The report will be updated once data becomes available.

The projects selected under the 2011 call for proposals for eco-innovation first application and market replication projects are undergoing negotiations and grant agreements will be signed until Q3 2012. The report will be updated once data becomes available.

## Glossary

The present report provides data on the *grant beneficiaries* concerning the first four blocks mentioned above. For the fifth block, the CIP financial instruments, data is provided on *intermediaries* by participating country.

## Grants

The template for **grants awarded** (other than financial instruments) is similar to the format used for the *ex post* publication of awarded grants in accordance with the Financial

---

<sup>1</sup> As regards the objectives of the EIP listed in Article 10 of the CIP Decision, it can be noted that grants are mainly used to achieve objectives (b) the creation of an environment favourable to SME cooperation, particularly in the field of cross-border cooperation, (c) all forms of innovation in enterprises and (d) eco-innovation. Financial instruments are used for objectives (a) access to finance for the start-up and growth of SMEs and investment in innovation activities and (d) eco-innovation. Procurement is more common for objectives (e) entrepreneurship and innovation culture and (f) enterprise and innovation-related economic and administrative reform.

Regulation<sup>2</sup>. Some further information is provided, where possible, such as duration of contract and whether the recipient is an SME. More precisely the template contains the following:

- information on the recipient of a grant: the beneficiary who receives the grant.
- information on the country: the nationality of the recipient of the grant.
- Title of the action: the name of the action financed.
- No of the action: the number used by the Commission in order to identify the action
- Maximum eligible cost of the project in €: the maximum costs for actions which are eligible including the contribution of the beneficiary (co-financing)
- Maximum EU co-financing in €: the maximum Union financial contribution in terms of commitments (the maximum amount that the Commission may contribute).
- % EU: represents the percentage of the Union financial contribution
- Duration of the grant agreement: represents the period during which the action is implemented.

### ***Financial Instruments***

Financial instruments are part of the Entrepreneurship and Innovation Programme (EIP), one of the three specific programmes under the CIP<sup>3</sup>.

Three financial instruments for SMEs are foreseen in the CIP/EIP legal basis:

- the High Growth and Innovative SME Facility (GIF), which aims at increasing the supply of equity for innovative SMEs in their early stages (GIF1) and in the expansion phase (GIF2);
- the SME Guarantee Facility (SMEG) which provides counter- or co-guarantees to guarantee schemes operating in eligible countries, and direct guarantees to Financial Intermediaries, in order to increase the supply of debt finance to SMEs;
- the Capacity Building Scheme (CBS) - this instrument has, however, shown no response from the market, and therefore has been closed down.

---

<sup>2</sup> Council Regulation (EC, Euratom) No 1605/2002 of 25 June 2002 on the Financial Regulation applicable to the general budget of the European Communities. For example, please see the following website: [http://ec.europa.eu/enterprise/contracts-grants/calls-for-proposals/grants-awarded/index\\_en.htm](http://ec.europa.eu/enterprise/contracts-grants/calls-for-proposals/grants-awarded/index_en.htm)

<sup>3</sup> Decision N° 1639/2006/EC of the European Parliament and of the Council of 24 October 2006 establishing a Competitiveness and Innovation Framework Programme (2007-2013), OJ L310, 9.11.2006, p.15.

The main indicators presented in the tables referring to both GIF and SMEG CIP financial instruments are cumulative from the beginning of the programme and should be interpreted as follows:

- Actual Intermediary Size - the aggregate amount of unconditional commitments from all partners including GIF - either current or, if past final closing, the final aggregate commitments;
- Target Intermediary Size - the aggregated amount of commitments from all partners as an agreed level between EIF and the Manager, and targeted to be raised by the Manager;
- GIF Net Signed Amount - aggregated amounts committed by EIF, including equalisations fees, excluding cancellations subject to EIF's commitment conditions;
- Guarantee Cap - the total maximum amount payable by the EIF under the relevant EU Guarantee, expressed as a nominal amount, excluding, however, eligible expenses and any technical support relating to that EU Guarantee;
- Total Loan amount - total loans to the Final Beneficiaries which are covered by the relevant EU Guarantee.

## ***1: Enterprise Europe Network***

The grant agreements with the partners of the Enterprise Europe Network will be ready for signature by the end of 2012, beginning of 2013. The global commitments have been made and the individual commitments will be done once the contracts are prepared for signature. The report will be updated once data become available.
