ANNEX TO THE GRANT AGREEMENT

Final technical report template related to activities launched using funding from the European Union Programme for Employment and Social Innovation

EaSI 2014-2020

This exercise should tell us how the EU-funded action under EaSI Programme (Regulation EU No 1296/2013) has progressed and what was achieved in the funding period.

This form must be completed in English.

The deadline for returning BOTH hard and electronic versions of your report is indicated in the Special Conditions of your grant agreement.

QUALITATIVE INFORMATION

Results	
Main objectives List the original goals and objectives of the action as set out in the grant agreement, and explain how they were met during the implementation period.	
Policy themes

Conclusions	
What are the most important conclusions and lessons learned from the action?	-
Policy follow-up	

EXECUTIVE SUMMARY

Beneficiaries/contractors must provide in the final technical implementation report, or upon specific request, an executive summary regarding the results /impact achieved by the project.

The executive summary will be published. It should be a stand-alone summary of the action and its implications. It should be concise (max 7500 characters), written in plain language and be made available to the Commission in **English**. Other EU languages are welcome but optional.

The executive summary must include the following::

1. Short description of the action:

Context and policy areas, main objectives, target group(s) and key activities and deliverables (provide also the publication and website address).

- **The context of the action.** Please describe why your organisation or consortium decided to implement this particular action. Is this action a follow-up to any previously implemented activities funded either by national or EU funds? Where does this action fit in the overall activities/strategy of your organisation? To which of the local/national/EU level policies your action contributes?
- Main policy areas and sub-areas. Please mention policy areas and sub-areas where your action is expected to take an effect. For example, a policy area can be indicated as 'social protection and social inclusion,' while 'long term care' could be a sub-area. Please elaborate where exactly your action aims to contribute in terms of the indicated policy areas and sub-areas.
- Main objectives. Please indicate what your action aimed to achieve.
- **Key activities.** Please indicate the main activities that you implemented to achieve the objectives listed in the section above. If you have introduced any significant changes to what was planned in the beginning of the project, please explain why these changes were necessary and what effect they had on the outcomes of the action.
- **Target groups.** Please indicate the target groups of your action. Please comment if you took any actions in order to involve groups that are vulnerable (e.g. young people, long-term unemployed). Did you take any actions in order to ensure that women and men are equally included in your activities?
- **Deliverables**. Please indicate what are the main deliverables of your action? Were they published in paper or on-line? If so, please provide the links/references to publications. Please explain how have the main deliverables of the project contributed to achievement of the project objectives listed above? If available, please also provide a website of your action.

2. Conclusions:

Description of results, impacts and EU added value.

- Results of the action. List all the relevant results of your action. Please directly address the issue whether your action achieved
 everything that you have planned. For this, please compare your results with the objectives that you have indicated above. In case you
 have not achieved everything that was planned, please explain why this was the case.
- Impacts of the action. Please list the impacts of your action (actual or expected). Since it might take time for the impacts to materialise, please also reflect on the expected impacts. Please indicate the impacts of your action on: the population (local, national or EU), your organisation, other national or EU organisations, policy (at the local, national, EU or international level). Will the achieved impacts be sustainable? What are the factors suggesting the sustainability or unsustainability of the impacts?
- **EU added value.** According to the Better Regulation Guidelines, EU-added value looks for changes, which (as it can be reasonably argued) are due to EU intervention rather than any other factors. EU added value may result from different factors e.g. co-ordination gains, improved legal certainty, greater effectiveness or complementarity. Please indicate:
 - a. Could you have implemented a similar action without the EU funding? Where exactly the EU funding has mostly contributed in your action's budget?
 - b. Has a given effect of the action been achieved at a lower cost for taxpayers because the intervention took place at EU level?
 - c. Has your action implemented or led to networking among the national/EU organisations?

In addition, depending on the type and nature of the action, please try to answer the following questions:

- d. Has your action contributed to implementing the EU legislation or ensuring that the legislation is correctly implemented?
- e. Have you implemented/promoted any "best practices" identified under your previous activities? Could you mention such practices?
- f. Have you implemented any activities that allowed for benchmarking among the Member States (such as peer reviews, mutual learning events)? Do you have any examples of decisions based on such benchmarking activities?
- g. Have your activities allowed for mitigation of any cross-border risks that might have harmed your activities if they were implemented only at the national level? Please explain.
- h. Has your action contributed to the free movement of persons? If yes, please explain how.

When completing this part, please focus in particular on pointing out the potential good practices implemented during the project. Good practice is a process or a methodology that has been proven to work well and produce good results, and is therefore recommended as a model or as a useful example. To indicate the potential good practices, please consider the following questions:

- Are there any elements of the project that could be transferred/up-scaled to other similar contexts? Is it foreseen?

- Are there any elements of the project that you consider innovative?
- Was new policy evidence (studies, reports, methodologies, etc.) produced as a result of the project?
- What are the key impacts of your action?
- Were there any elements of the project that could not have been implemented without the EU support?
- Will the results/impacts of the project be sustainable after it finishes? How will the sustainability of the project impacts be ensured?
- Did you develop new partnerships (national/EU/international) as a result of this action? Are these partnerships lasting?

3. Policy follow-up:

Description of the policy follow up and recommendations.

- The expected policy follow-up. Please indicate whether your or other organisations (to the best of your knowledge) have plans to replicate or up-scale this action. Will the action be continued without the EU funding? Will other organisations implement a similar action because they have learned from your action? Will any other actions be taken as a follow-up for your action?
- **Lessons and recommendations.** Please provide a short list of lessons and recommendations resulting from your projects. What have you learned from the implementation of this action that could be used in the future by other organisations implementing similar actions? What obstacles have you faced and how did you react? Based on your action, what would you recommend for other similar organisations working in the same policy area?

QUANTITATIVE INFORMATION

Please enter the information on outputs delivered by the action.

Analytical outputs		
Enter the number of outputs irrespective of whether they were published or not. An output produced in several languages counts as a single output.		
Number of newly developed and/or maintained quantitative and qualitative databases		
Number of common methodologies, classifications, micro-simulations, indicators and benchmarks		
Number of reports: surveys, studies, analyses and expertise		
Number of evaluations and impact assessments		
Number of monitoring and assessment reports on the transposition and implementation of Union law		
Has your project implemented social policy experimentation as a method for testing and evaluating innovative solutions?	Yes No	
Outputs dissemination		
Please explain how and to whom the reports were disseminated: target audiences (e.g. EU, national, regional or local policy-makers, socio-economic partners, etc.) and means used (e.g. printed copies, Internet, etc.)(Max 2000 characters)		
Output dissemination

Civil society organisations, including NGOs	Social partners

International organisations	European-level observatories	
Microcredit providers and investors in social enterprises		
Dissemination		
Please explain how and and to whom were the actions disseminated: target audiences (e.g. EU, national, regional or local policy-makers, socio-		
economic partners, etc.) and means used (e.g. newsletters, newspapers community of practices, etc.) (Max 2000 Characters)		

Notice to participants of events to be announced by the organisers:

Persons taking part in this event will be registered in a document called 'the list of participants', which will include at least their first and last names and e-mail addresses. Depending on particular cases, it might also include participants' sex, organisation and country details. The personal data included in the list of participants will be necessary and used for monitoring of the EU Programme for Employment and Social Innovation (EaSI), including for surveys carried out thoughout the programme duration.

The participants in EaSI-supported events can be contacted via surveys to learn their views and opinions about an EaSI-supported event in which they have participated, e.g. a conference, meeting, seminar or other type of event funded fully or partially by the EaSI programme.

The collected personal data and all information related to the above mentioned surveys is stored on a server of the external contractor of the European Commission, who guarantees the data protection and confidentiality required by the Regulation (EC) 45/2001.

When you receive the survey, you will be able to verify, which personal data is stored, have it modified, corrected, or deleted. You will also have the possibility to ask questions regarding surveys or on the processing of information in the context of the surveys.
